

## ErisStation® Wireless Conference Phone with Two Wireless Mics

### VCS712 2W

Free yourself from conference room wires, and help your team collaborate better. The VTech ErisStation analog wireless conference phone uses DECT 6.0 technology for a completely wireless conference experience. The system includes a DECT base with an analog PSTN connection and docking station to charge the phone with up to 24 hours of talk time. And just place the two wireless mics in the phone's built-in charging bays to get them ready for the next call. The VCS712 2W allows total freedom for placement in your conference room—without tripping over wires. With wireless mics, you'll experience less frustration and more successful conversations. Need to accommodate a larger meeting? Easily add up to two accessory VCS850 DECT expansion wireless speakerphones to handle more active participants. Now, you and your team can clearly hear, spread out and speak without shouting over the table.

### VCS712 Key Features

**Full-duplex speakerphone in base**

Callers can speak and be heard at the same time, just as they would in a face-to-face meeting.

**Wireless freedom**

Free yourself from the clutter of wires. With DECT 6.0 technology, you can place the conference phone up to 150 feet from the base station.

**Up to 24 hours of wireless talk time**

With up to 24 hours of talk time, you don't need to worry about charging the large battery in the middle of a meeting.

**Wireless expansion**

Collaborating in a large conference room? Pair up to two VCS850 DECT Expansion Wireless Speakerphones to increase the volume and microphone pickup for 21 or more active participants.

**Intuitive design**

You're in business with a user-friendly interface, large backlit display, three soft keys and navigational pad.

**DECT 6.0 wireless microphones with Orbitlink Wireless Technology**

Portable, wireless microphones allow everyone to collaborate beyond the conference table.

**Up to 12 hours of talk time per wireless microphone**

With 12 hours of talk time for each microphone, you have plenty of room to keep the meeting going on one charge.

**Up to 70 hours of standby time per wireless microphone**

With up to 70 hours of standby time for each microphone, there's no need to worry about losing a charge mid-meeting.

**Built-in wireless microphone charging bays in base**

Magnetic charging bays in the base keep the microphones together and ready for the next call.

**Operable in small, medium and large rooms**

With a base speakerphone, one fixed and two wireless microphones, ErisStation is a flexible solution for most conference rooms.

**2-year standard warranty**

Enjoy the peace of mind that comes with an industry-leading, standard two-year warranty.

**Automatic gain control**

- Digital mixing
- Volume Control: 10 levels

**2-line backlit display with date and time**

## Specifications, Weights and Dimensions
