41001 – CONTINENTAL LETTER SIZE WATER-RESISTANT REVERSIBLE FILE FOLDERS MANILA (100 UNITS/BOX)

Description:

Continental letter size water-resistant reversible file folders are treated with a specially formulated coating, designed to resist water spills and finger stains. The coating prevents the absorption of liquids, hence permitting the user to simply wipe the folder clean of spills and stains. The product has 3 incorporated horizontal fold-lines at the bottom allowing for a tidier handling of bulky document. Made out of 100% post-consumer material, it is an ideal product for an eco-friendly office space. The folders are made of 10 ½ pt stock, 100 per box, made in Canada.

Key Features:

Each box contains 100 units of water-resistant letter size file folders with 10 ½ pt. thickness.

- 100 % post-consumer material
- Water resistant coating
- Manila
- ½ cut tab
- Rounded corners front and back
- Box of 100 units
- Made in Canada
