

5422D and 5423D Lock Boxes Security on the Go™

Master Lock provides a convenient way to always have a spare key or access card securely stored where you need it. These reliable **push button**, set-your-own combination lock boxes use a familiar alpha/numeric keypad format and can be easily attached to a doorknob, or something permanent nearby, giving users the freedom of always knowing where their keys are and controlling access to them. Stock the brand consumer's trust for all their security needs.

Convenient. Secure. Reliable.

Master
